Pharmacy Benefits Updates

Reminder: \$0 Dollar Emergency-Use Medications

Reminder: Quarterly Pharmacy Changes are published in two parts. The part 1 article covers changes that require member notification – drug list revisions/exclusions, dispensing limits, utilization-management changes and general information on pharmacy benefit program updates. Our members receive letters

regarding these changes. This part 2 article contains coverage additions, utilization management updates and any other pharmacy program updates. These updates do not require member notification.

Drug List Changes

Based on the availability of new prescription medications and Prime’s National Pharmacy and Therapeutics Committee’s review of changes in the pharmaceuticals market, some additions (new to coverage) and/or some coverage tier changes (drugs moved to a lower out-of-pocket payment level) will be made to the [Blue Cross and Blue Shield of New Mexico](#) drug lists. **Additions effective April 1, 2025, and prior updates are outlined below.**

Reminder: In compliance with [New Mexico Senate Bill 135](#), which removes step therapy or prior authorization requirements from certain medications, New Mexico fully-insured group members were transitioned to the new Performance Full Drug List, Jan. 1, 2025.

Utilization Management Program Changes

Utilization Management programs are implemented to regularly review the appropriateness of medications within drug-therapy programs, and as a result, may adjust dispensing limits, prior authorization or step-therapy requirements. The following drug programs reflect those changes.

Reminder: In compliance with [New Mexico Senate Bill 135](#), New Mexico fully-insured group members were transitioned to the new Performance Full Drug List, effective Jan. 1, 2025. The bill removes step therapy or prior authorization requirements from certain medications. These clinical program changes were applied to both the Performance Full Drug List and the Health Insurance Exchange Drug List, as applicable.

Standard Utilization Management Program Updates

Prior authorization and Step Therapy programs for standard-pharmacy benefit plans correlate to a member's drug list. Not all standard programs apply since updates are based on the member's current drug list. The prescription drugs tab on [bcbsnm.com](#) lists the current [drug lists](#) and [dispensing limits](#). Members may also log in to [Blue Access for MembersSM](#) or [MyPrime.com](#) for a variety of online resources.

Please Note: The PA programs for standard pharmacy benefit plans correlate to a member's drug list. Not all standard PA programs may apply, based on the member's current drug list. A list of PA programs per drug list is posted on the member pharmacy programs section of [bcbsil.com](#).

If your patients have any questions about their pharmacy benefits, please advise them to contact the number on their member ID card or log into any of the online resources.

Program Updates

The following standard utilization management programs were updated on the dates indicated below.

Alternative Dosage Form PAQL removed target Dartisla, Vtol soln, Valsartan oral soln effective Jan. 15, 2025. This update applies to the Basic, Basic Multi-Tier, Enhanced, Enhanced Multi-Tier, HIE, Balanced, Performance, Performance Full and Performance Select Drug Lists.

Colony Stimulating Factors ST removed the target Nyvepria effective April 1, 2025. This update applies to the Basic, Basic Multi-Tier, Enhanced and Enhanced Multi-Tier Drug Lists.

Program Retirements

The following standard utilization management programs have been retired on the dates indicated below.

Please Note: The Prior Authorization, Step Therapy or Quantity Limits programs for standard pharmacy benefit plans correlate to a member's drug list. Not all standard programs may apply, based on the member's current drug list. A list of programs per drug list is posted on the member pharmacy programs section of [bcbsnm.com](#).

If your patients have any questions about their pharmacy benefits, please advise them to contact the number on their member ID card. Members may also visit [bcbsnm.com](#) and log in to [Blue Access for MembersSM](#) or [MyPrime.com](#) for a variety of online resources.

Homozygous Familial Hypercholesterolemia PAQL was retired Feb 1, 2025. This program included the drug target Juxtapid.

Oxbryta PAQL was retired Feb 15, 2025. This program included the target drugs Oxbryta tab and Oxbryta tab for oral suspension.

Transmucosal Immediate Release Fentanyl PAQL was retired Jan. 15, 2025. This program included the target drugs Actiq lozenge, Fentora buccal tab and Subsys sublingual spray.

Dispensing Limit Changes

The prescription-drug benefit program **BCBSNM** includes coverage limits on certain medications and drug categories. Dispensing limits are based on U.S. Food and Drug Administration approved dosage regimens and product labeling.

Dispensing Limit changes are listed below with their effective date.

View the most up-to-date drug list and list of drug dispensing limits, visit the [provider pharmacy webpage](#).

If your patients have any questions about their pharmacy benefits, please advise them to contact the number on their member ID card. Members may also log in to [Blue Access for MembersSM](#) or [MyPrime.com](#) for more online resources.

Change in Benefit Coverage for Select High-Cost Products

Several high-cost products with available lower cost alternatives will be excluded on the pharmacy benefit for select drug lists. This change impacts BCBSNM members who have prescription-drug benefits administered by Prime Therapeutics[†]. This change is part of an ongoing effort to ensure our members and employer groups have access to safe, cost-effective medications.

Please note: Members were not notified of this change because either there is no utilization, or the pharmacist can easily fill a member's prescription with the equivalent without needing a new prescription from the doctor.

The following drugs are excluded on select drug lists.

PRODUCT(S) NO LONGER COVERED ¹	COVERED ALTERNATIVE(S) ^{1, 2}	CONDITION
METRONIDAZOLE tab 125 mg	METRONIDAZOLE 250 mg TABLETS	Bacterial Infection
FENOPROFEN cap 300 mg	MELOXICAM, IBUPROFEN, NAPROXEN	Pain, Inflammation
TOLMETIN SODIUM tab 600 mg	MELOXICAM, IBUPROFEN, NAPROXEN	Pain, Inflammation
METHOCARBAMOL tab 1000 mg	METHOCARBAMOL 500 mg OR 750 mg, BACLOFEN, CYCLOBENZAPRINE, TIZANIDINE	Muscle Spasms/Pain

Reminder: \$0 Dollar Emergency-Use Medications

Since Jan. 1, 2025, or upon renewal, select-acute medications may be available at a \$0 cost-share for members needing immediate-medical treatment. These medications are typically used for emergency-use or life-saving situations. Removing cost barriers to these medications gives members immediate access to these treatments during urgent, medical events.

For more information about this benefit, please read the member [flier](#).

The \$0 cost share will apply for applicable benefit plans at any in-network pharmacy, including both preferred and non-preferred pharmacies for those plans on the Preferred Network.

¹Third-party brand names are the property of their respective owner.

²This list is not all inclusive. Other medicines may be available in this drug class.

³Coverage of medications is still subject to the limits, exclusions and out-of-pocket requirements based on the member's plan.

⁴This drug is based on group-specific coverage. Members should refer to their benefit materials for coverage details or call the number on the back of their member ID card.

Please note: If coverage of the member's medication is changed on their prescription drug list, the amount the member will pay for the same medication under this preventive drug benefit may also change.

[†]Prime Therapeutics, LLC is a separate company BCBSNM contracts with Prime Therapeutics to provide pharmacy solutions. BCBSNM, as well as several independent [Blue Cross and Blue Shield Plans](#), has an ownership interest in Prime Therapeutics.
